The Magic of Storytelling

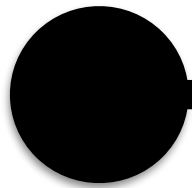

Homer

Shakespear

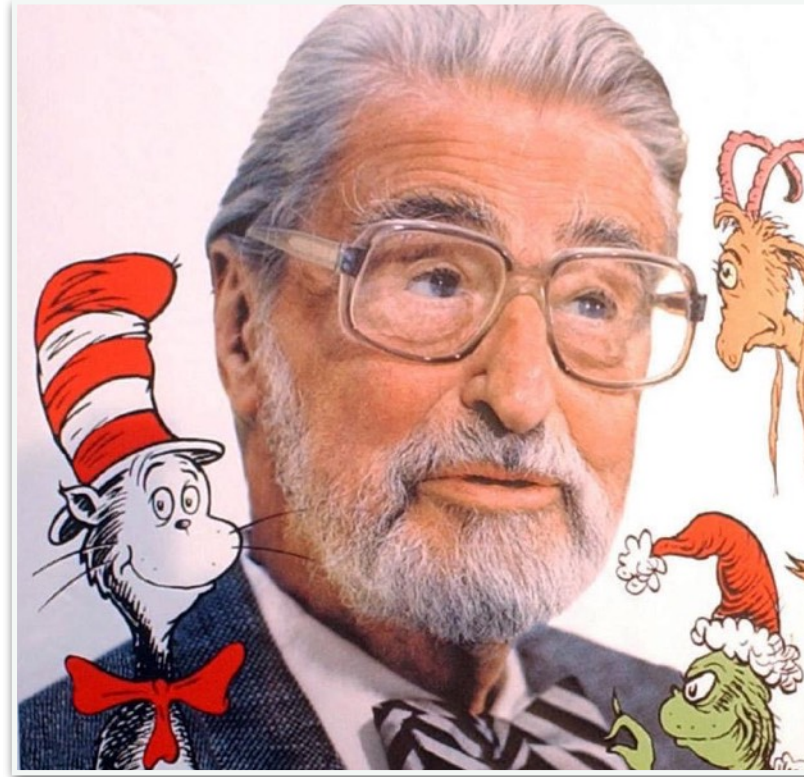

Margaret
Atwell

Walt Disney

Dr. Seuss

Stan Lee

Steven Spielberg

Steve Jobs

J.K. Rowling

Storytelling is a
SUPERPOWER that we all
possess

Touchcast Studio

- TouchCast allows teachers to easily incorporate active learning experiences into the classroom and at home, leading to more meaningful learning experiences.
- Students can use different modalities of broadcasting for self-expression: they can work in groups or by themselves; they can role-play, utilizing the green screen in a lecture, debate, interview, documentary, or other broadcast formats.
- Visit touchcast.com and download the EDU Guide by Dr. Ayelet Segal

The logo for TouchCast, featuring the word "TOUCHCAST" in white, bold, uppercase letters inside a blue speech bubble shape. The speech bubble has a tail pointing downwards and to the left.

TOUCHCAST

Bloxels

- Blending the physical and digital worlds
- From the creators of Pixel Press Floors
- #1 Toy at the 2015 New York Toy Fair

Green: Walls

Yellow: Coins

Red: Hazards

Blue: Enemies

Orange: Action Blocks
Push/Pull, Exploding,
Hidden, etc...

Purple: Power Ups

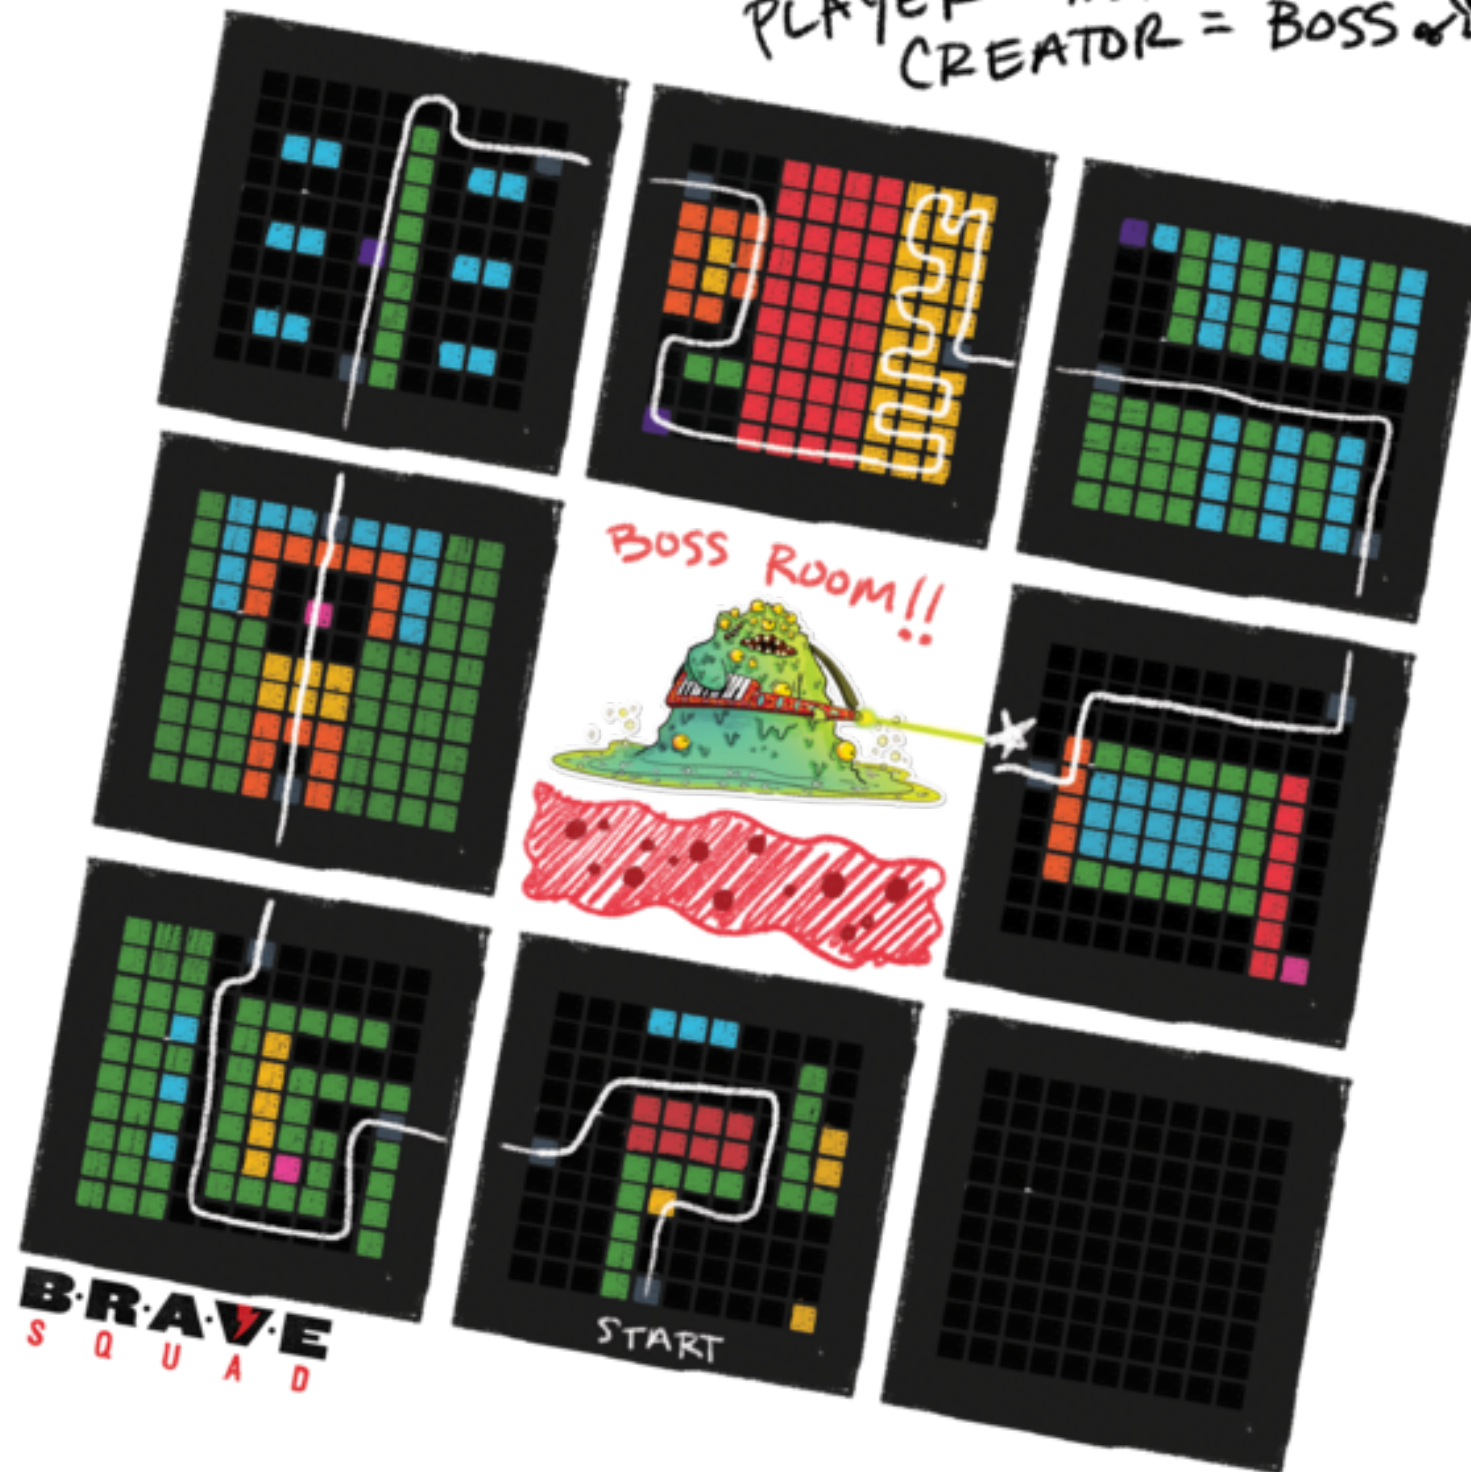

Pink: Keys

Gray: Enter
& Exit Points

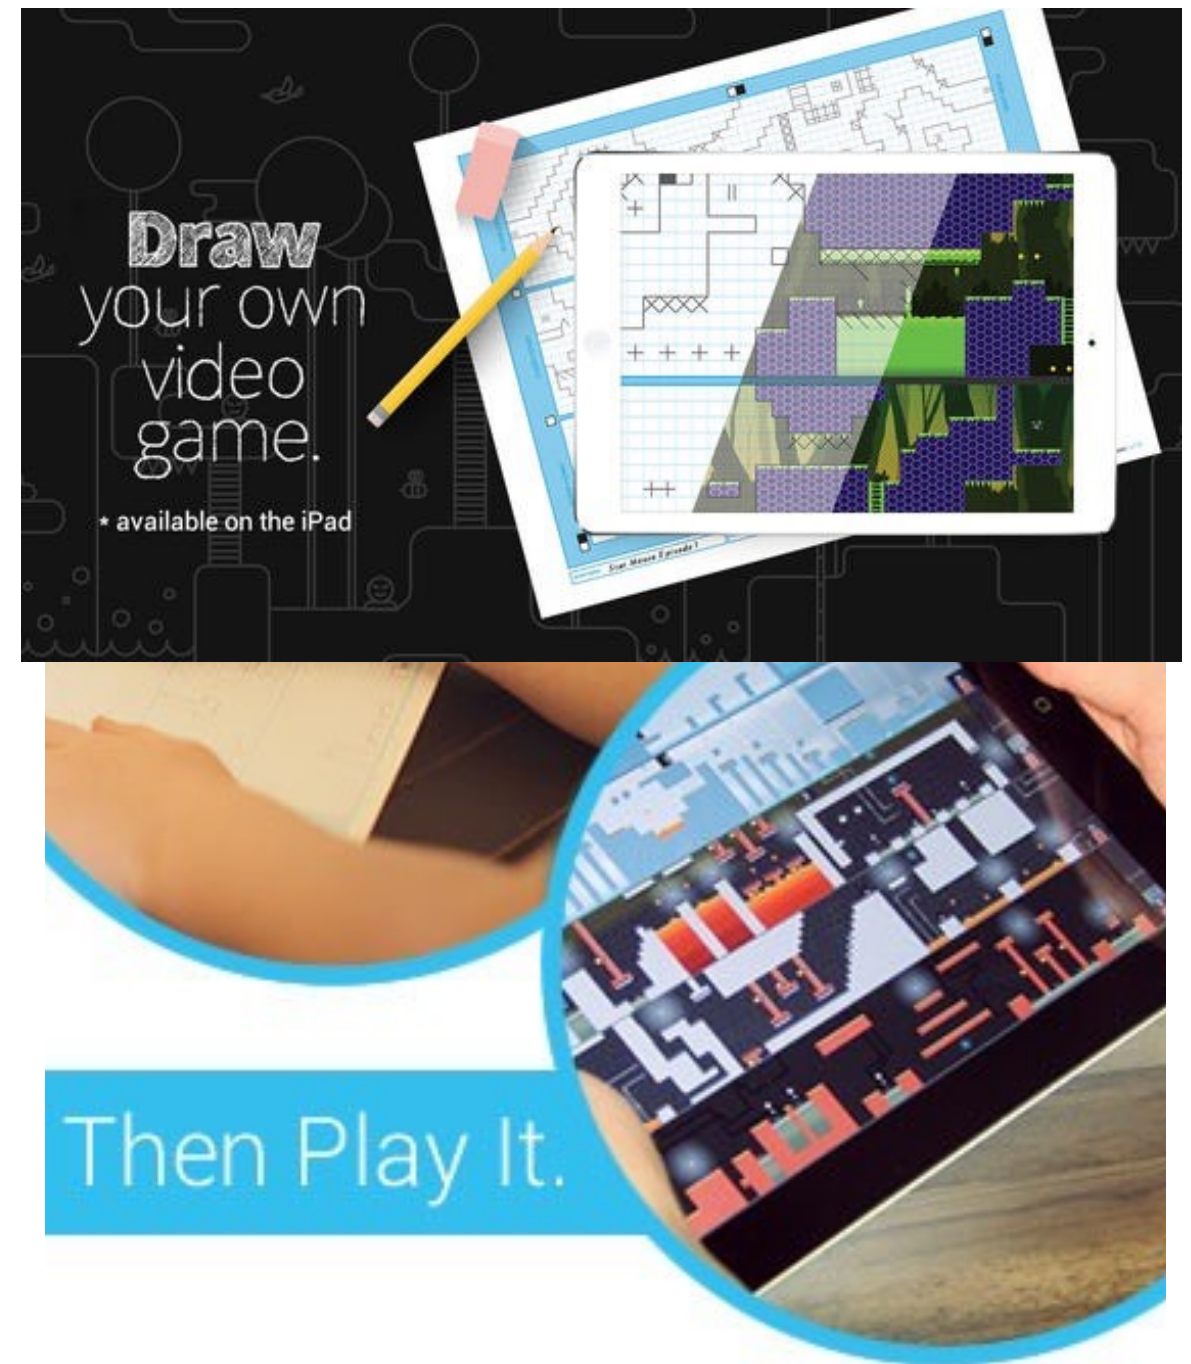

⚡
PLAYER = HERO
CREATOR = BOSS ☠️

BLOXELS™

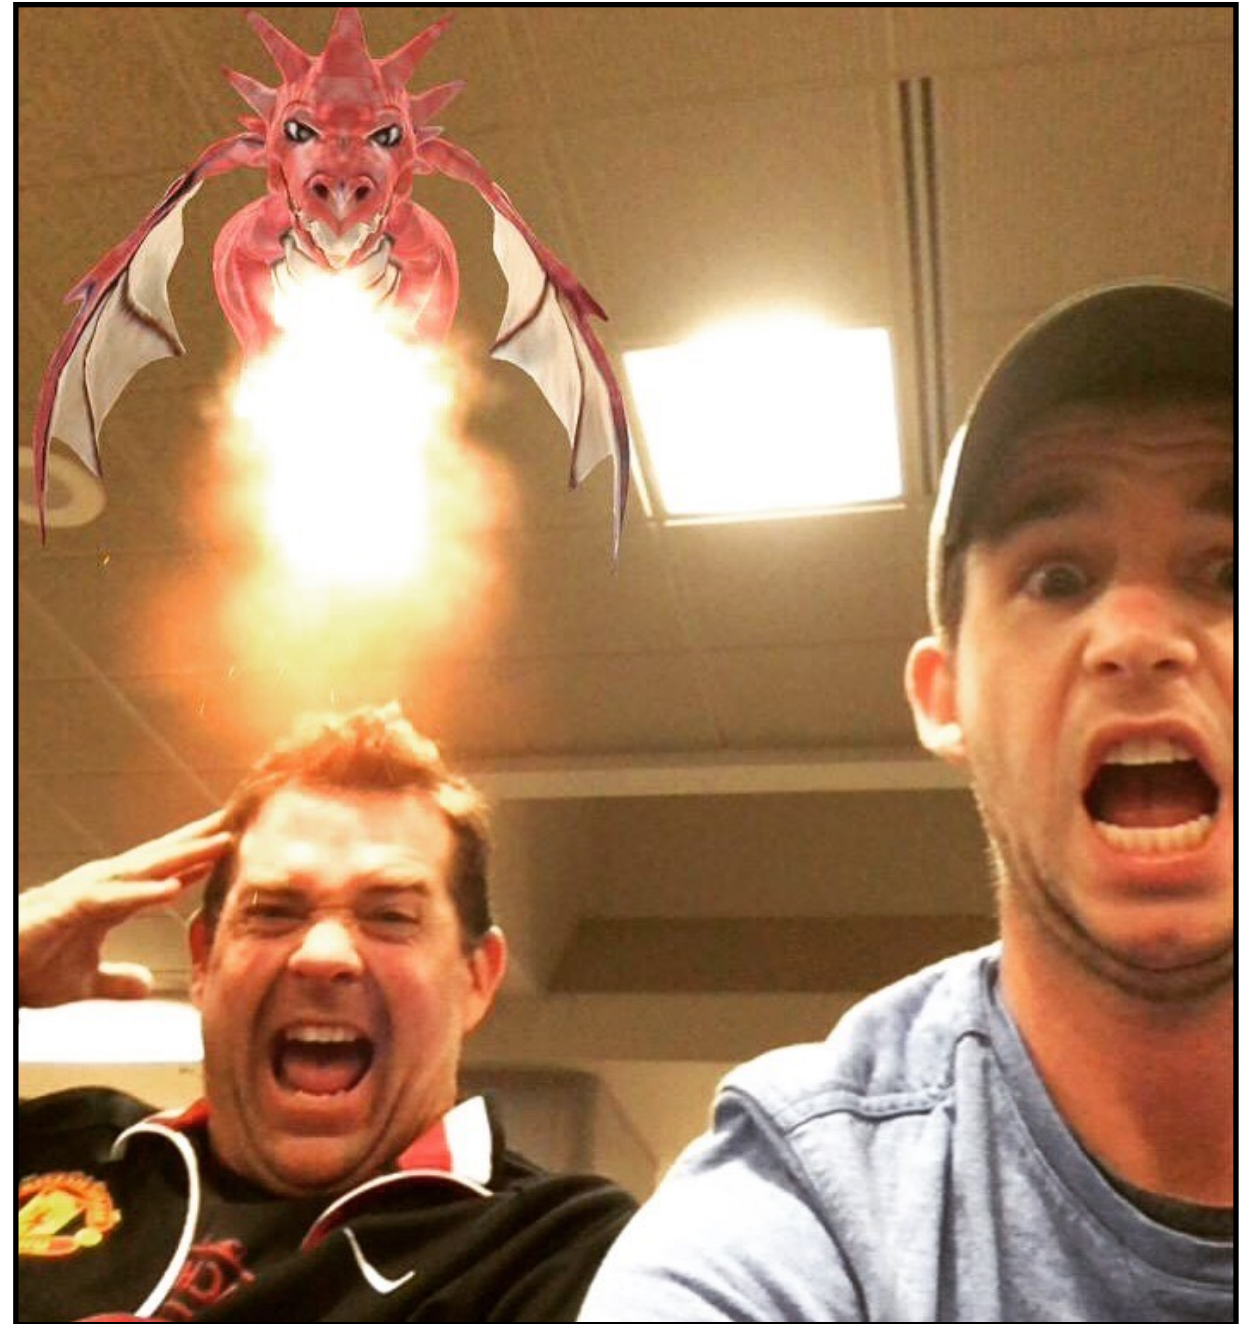

PIXEL PRESS-FLOORS

- Draw to create your own video games!
- STEM learning principles: prototyping, design thinking, teamwork and collaboration, trial and error, and user empathy.
- Use “glyphs” you draw on paper or use the “Draw-in-app” tools.
- Available on iPad and iPhone

Augmented Reality

- **Quiver & Quiver Education**
- **Crayola Color Alive**
- **Dreamworks Color**
- **Use AR coloring pages to inspire creative writing**

Shadow Puppet Edu

- Completely FREE for classroom use
- Allows students to bring still images to life by recording their voice over a slideshow have been enhanced for students.
- Videos creations can now be up to 30 minutes long and include 100 slides of pictures.

Toontastic

- Stunningly easy way to create your own animated films.
- Teaches the fundamentals of storytelling.
- Students can then publish their videos to the Toontastic Community

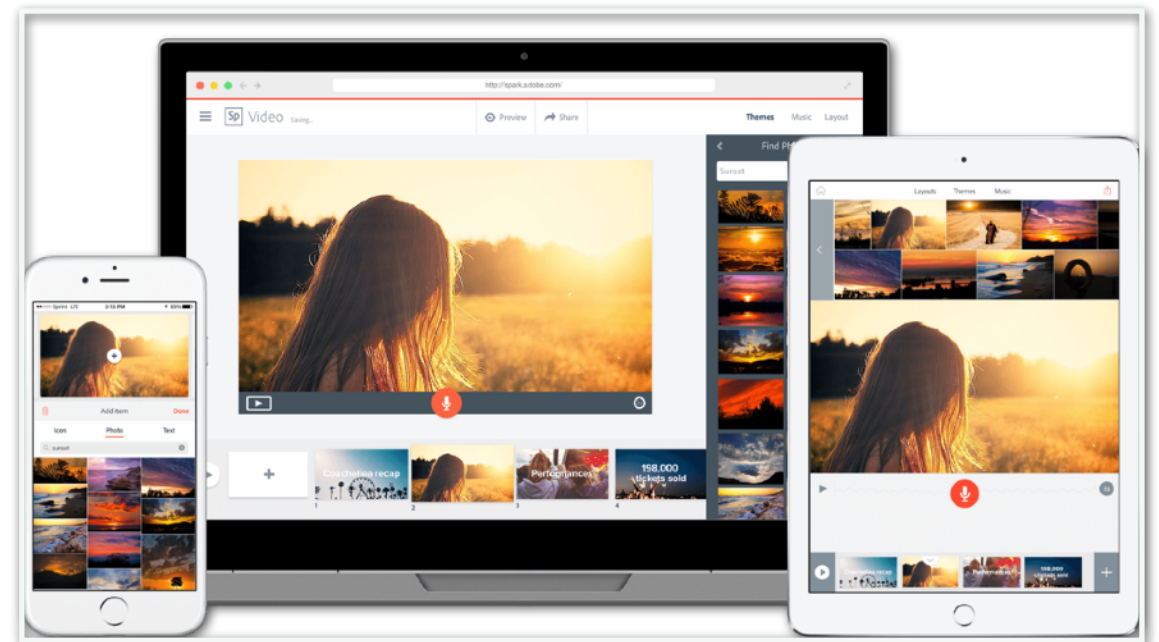

- Book Creator is the simple way to create ebooks in the classroom
- Students' can publish their books to the iBooks Store and Google Play Books.
- Teachers and students can edit and annotate each other's books and with the "combine books" feature students can collaborate on a single book across tablets, classes and even countries.
- Integrates with an abundance of great apps

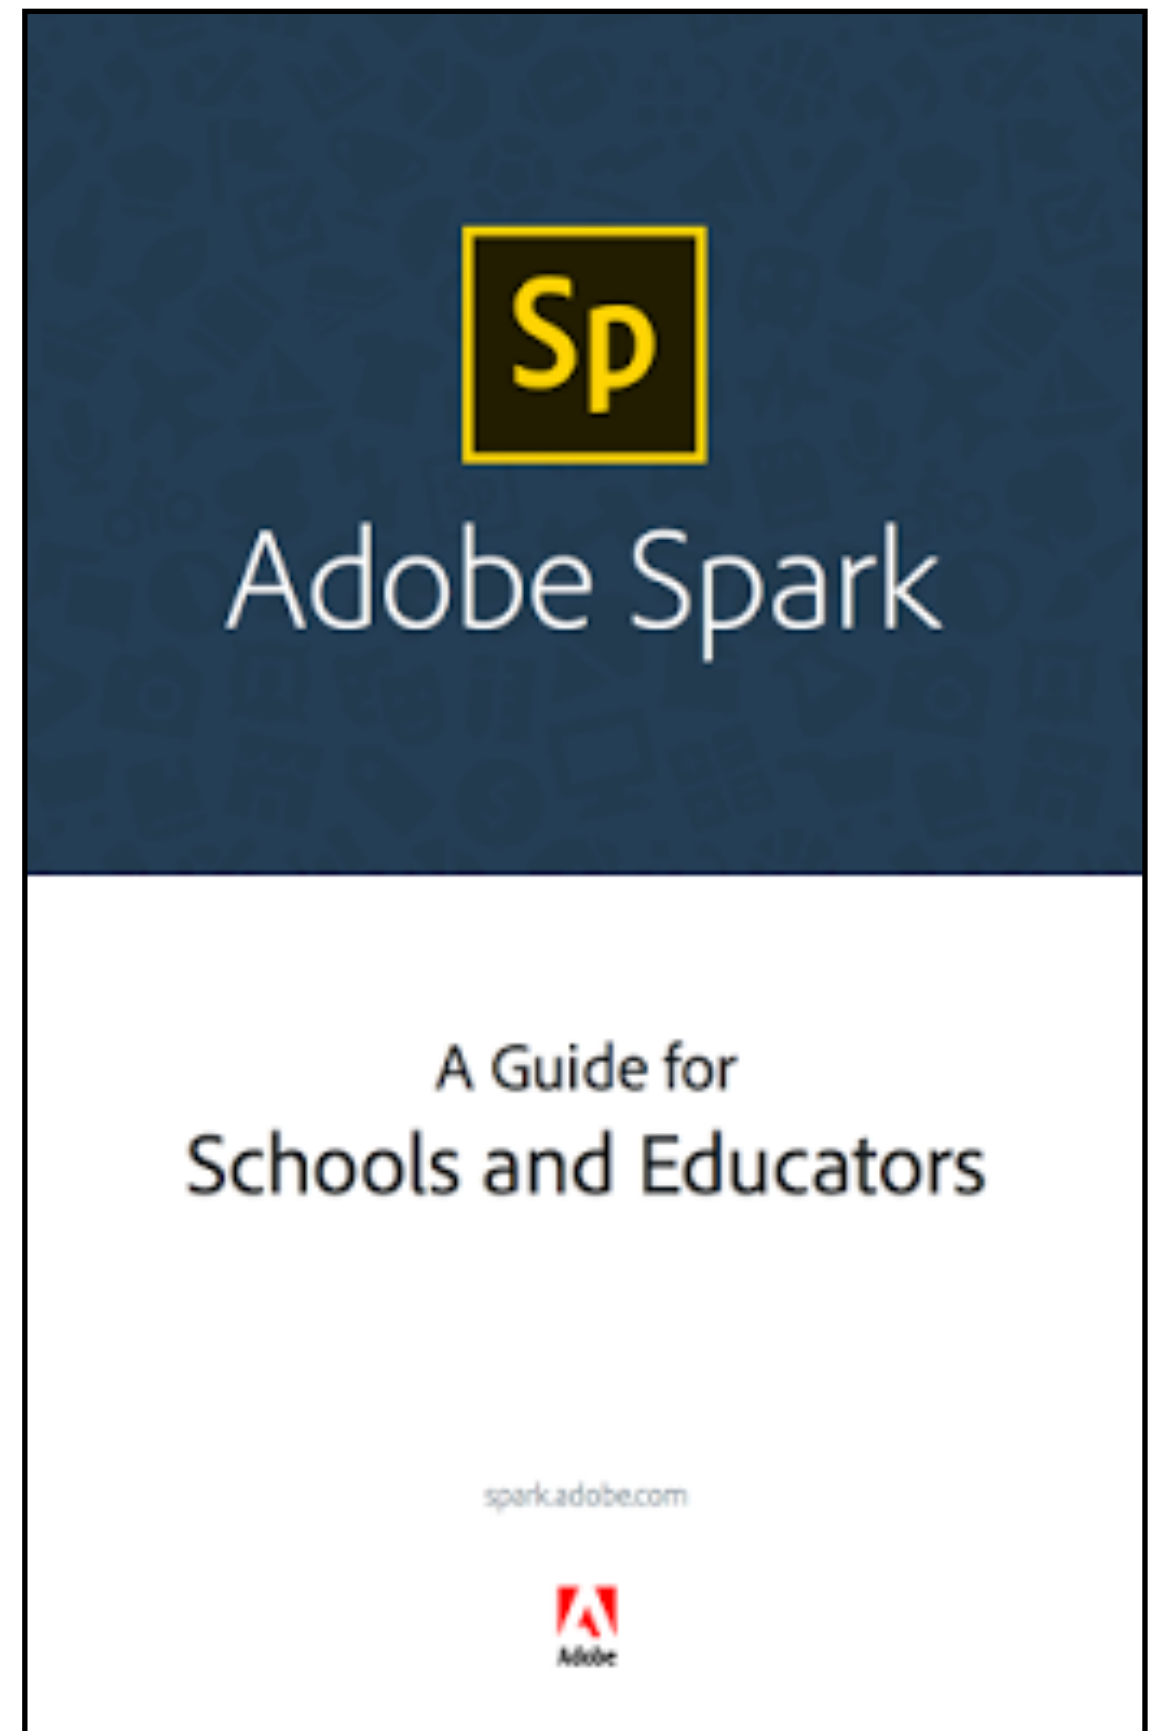

Adobe Spark

- "the only integrated web and mobile solution for creating and sharing impactful visual stories."
- Adobe Spark empowers anyone – to create stunning visual content that engages audiences across multiple channels and looks great on any device.

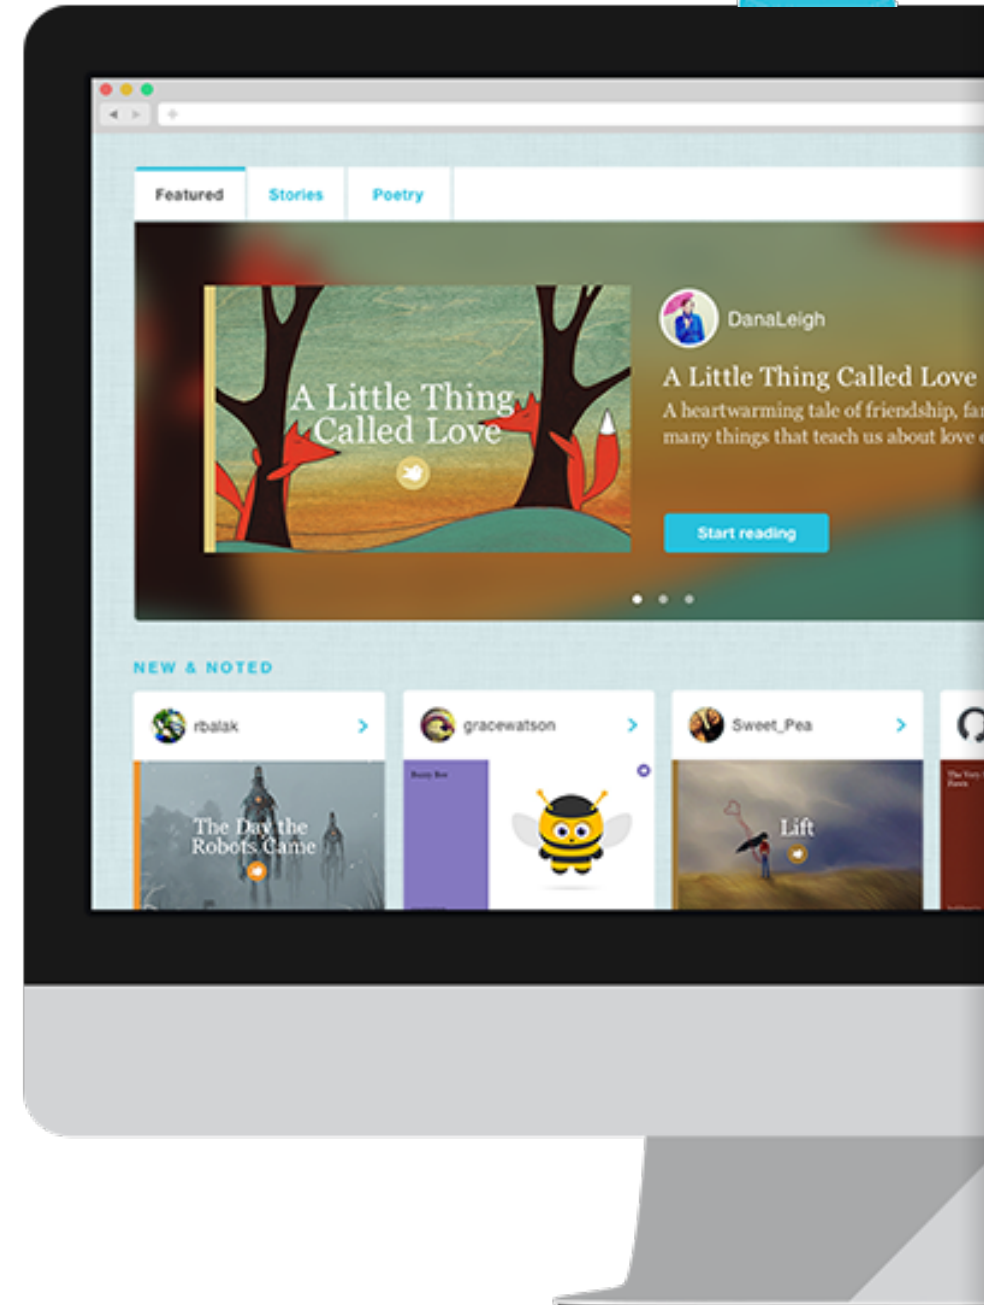

- Adobe Spark web app: a browser-based web experience for creating social posts and graphics, web stories and animated videos.
- Spark Post: an iOS mobile app that enables anyone to create stunning social posts and graphics in seconds. (previously Adobe Post)
- Spark Page: an iOS mobile app that helps users create beautiful web stories. (previously Adobe Slate)
- Spark Video: an iOS mobile app that enables users to create compelling animated videos in minutes. (previously Adobe Voice)

Storybird

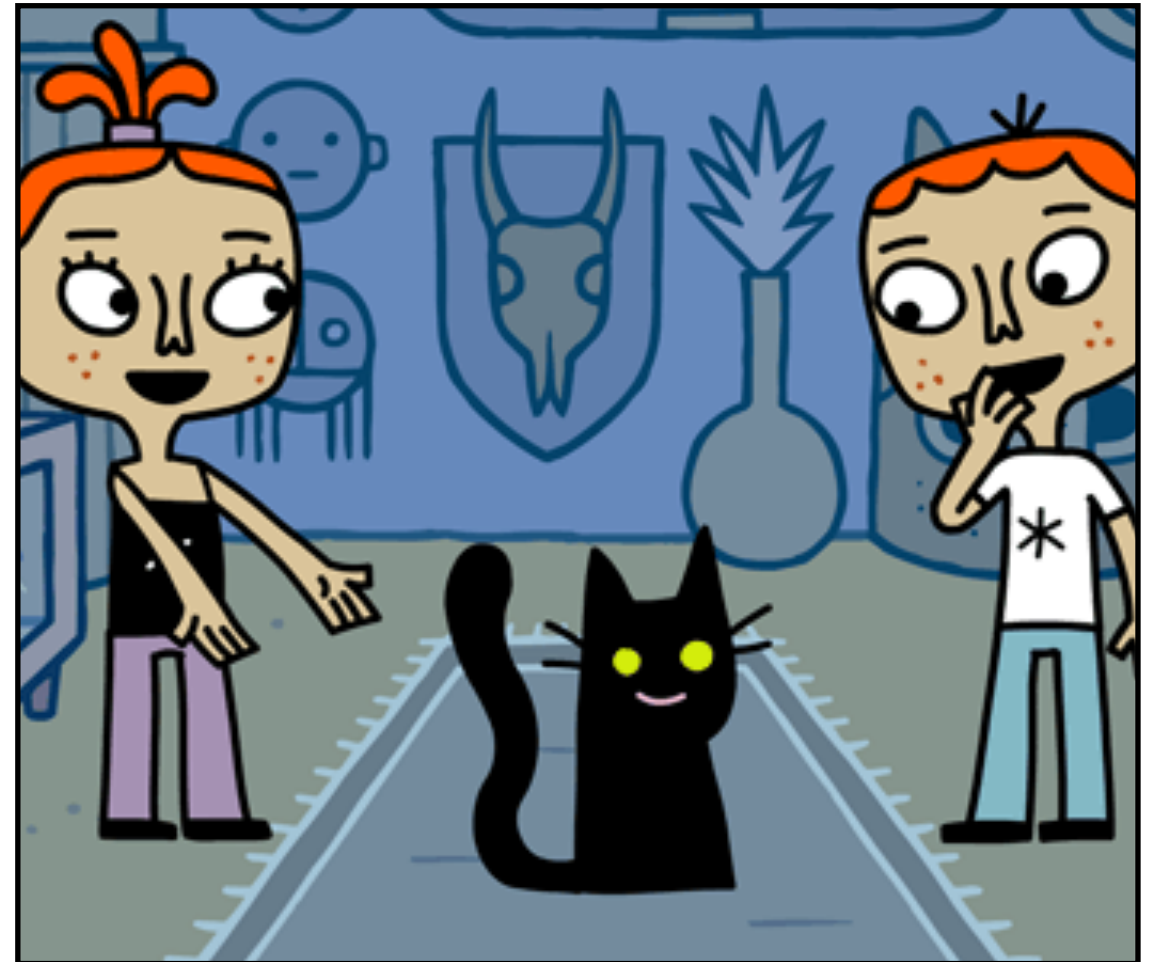

- You can create picture books, long form books and poetry. Choose an image to inspire your story and click to start.
- “starting with pictures” is powerful: it stirs the emotions while it engages the brain and jumpstarts students into their text, avoiding the blank-page syndrome.

Zimmer Twins

- Fun moviemaker children love with new teacher-friendly class management tools and privacy settings designed specifically for use in the classroom.
- Designed around elements of sentence structure and creative expression, which reinforces reading and writing skills.

Storytelling the language of the brain

“It is believed by most historians and psychologists that storytelling is one of the many things that define and bind our humanity.”

– storytellingday.net

What are your favorite storytelling tools?

Thank you and Stay connected!
