## Private vs. Personal Information

This registration form is asking for all sorts of information to help them “find friends” that you may already know, and to find friends that you don’t know, but have similar interests. In order to do this, Fakebook is asking for both PERSONAL and PRIVATE information.

### *What’s the difference?*

**PERSONAL INFORMATION** is information about your interests and hobbies. (For example, your favorite sports team.)

**PRIVATE INFORMATION** is information that is specific to you and could be used to find you. (For example, your home address.)

*Draw a line matching each type of information to the correct category:*

Favorite football team

Favorite song

Your school name

Where you work

Favorite color

Social Security Number

Phone Number

Name of Pet

Favorite television show
