

Integrating Technology into the Daily 5

Vicki Grenier
Lampeter-Strasburg School District

My Background and Philosophy

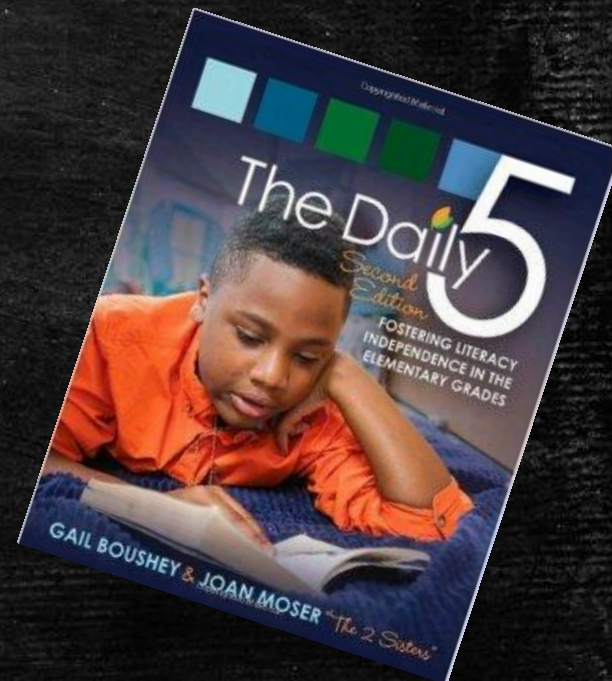

- Certifications in Elementary, Early Childhood, and Special Education
- Masters in Learning, Design, and Technology (Penn State)
- 3rd Grade teacher (also have taught kindergarten and 5th grades)

- Philosophy: Technology should be integrated into classroom routines when it enhances student learning and engagement.

Introduction

- Based on the work of Gail Boushey & Joan Moser
- Foundational alignments:
 - “Routine periods during which students read on their own, practicing old and new skills
 - Focused instruction that introduces new skills and guides student practice
 - Structure that reinforces independence
 - Student choice of activities and reading content
 - Authentic reading and writing tasks
 - Instruction and expectations that match brain development”
 - The Daily Cafe
- Also could be used to integrate technology into any ELA
