

# iPads and the Common Core Standards

~ Elementary Technology Conference 2013 ~

## Skitch Information and Tips

- Skitch allows you mark up photos, screenshots or images you have copied into your camera roll.
- Includes tools such as: stamps, text, shapes, pen and arrows that allow you to turn any image into a diagram.
- Share via Evernote, Dropbox, email or by saving to camera roll.

## Uses

- Take a screenshot of a location in Google Earth and then turn it into a diagram.
- Label geometric shapes (vertices, lines, angles).
- Make flow charts (life cycles, food chain).
- Create a photo ABC book.
- Label vocabulary words.
- Upload annotated pictures into Book Creator.
- Illustrate motion.
- Illustrate steps in a process.
